

REMINDERS OF COMMON POWERSCHOOL SEARCHES:

To ensure a student has a full schedule:

*number_of_classes<1

To ensure a student is enrolled in a specific period:

*not_enrolled_in_period=4

To find/export student's birthdays for a day or month:

*birthday=today

*birthday=8/8

*birthday>=8/1;birthday<=8/30

If you run birthday lists every month and want to sort the birthdays by Day, try this:

~ Run the birthday search

~ Use Quick Export

~ Include this search field: ^(DOB;dateformat=mm/dd)

To find/export a student's age:

^(age)

^(age;long)

To find Daily absences by date:

^(DABS;8/8/2008;8/31/2008)

To find a group of students with a specific period teacher:

Select your students

Export

In the export box

Last_Name

First_Name

^(*period_info;1(A);teacher_name)

To find how many days a child is on roll:

^(*DM;8/4/2008;12/19/2008;true)

To pull teachers email use Quick Export:

[05] Email_Address

To extract Home Room data with the Period_Info DAT for a student that has the expression "HR(M) HR(T) HR(W) HR(R) HR(F)", then the DAT must be configured like the following: ^(*period_info;HR(M) HR(T) HR(W) HR(R) HR(F);course_Name) Make sure you are using how your calendar is set up. Example mine is HR(M-F)
